

Manage, Motivate and Develop Talent!

What is the Insights Series?

Businesses are seeking better ways to secure the talent necessary for their success. Everyone is motivated to behave differently, and thus it is important to match the right person to the right role. The Insights Series will help you understand how to manage and motivate talent. In this way, the Talent Insights Reports ensure that the individual is well-suited to the job.

People have unique behaviours and values that can be matched to specific jobs, but they seldom are! The Insights Series is made up of the DISC behavioural model and the Workplace Motivators assessment tools. These tools measure our behaviours (HOW we prefer to do things) and our values (WHY we move into action).

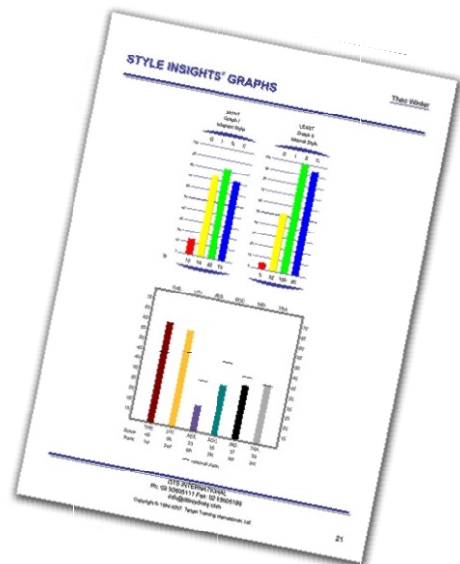

The Talent Insights Report indicates the behaviours and values that an individual has in common with the job. When a person's behaviours and values are in sync with those required by the job, the result is increased performance and retention.

Results and Benefits

This unique series can be used as an effective recruitment and development tool. This insightful behaviour and values report can assist to understand and develop new and existing employees. The Insights Series is ideal for personal and professional development.

The Insights Series will allow you to:

- ✓ **Understand why and how people tend to act**
- ✓ **Increase communication and understanding**
- ✓ **Profile positions and match candidates to them**
- ✓ **Create more effective teams and relationships**
- ✓ **Understand/adapt motivation and management styles to suite each individual**
