

**The most in depth insight you can gain into
a person from an assessment**

What is TriMetrix?

TriMetrix is the latest and most sophisticated assessment tool ever released on the market. The profile is a combination of 3 tools in 1 which truly does make it the most in depth insight you can gain into a person from an assessment.

The TriMetrix combines:

- | | |
|--|--------------------------------------|
| 1. DISC | <u>How we behave</u> |
| 2. Workplace Motivators | <u>Why we move in action</u> |
| 3. Personal Talent Skills Inventory | <u>What personal talents we have</u> |

These three tools by themselves have proven to be very powerful. When bought together to form TriMetrix, the profile reveals the most comprehensive and in-depth understanding that has ever been possible of an individual. To take this further, the practical nature of the feedback provided makes TriMetrix an effective tool for individuals, managers and teams.

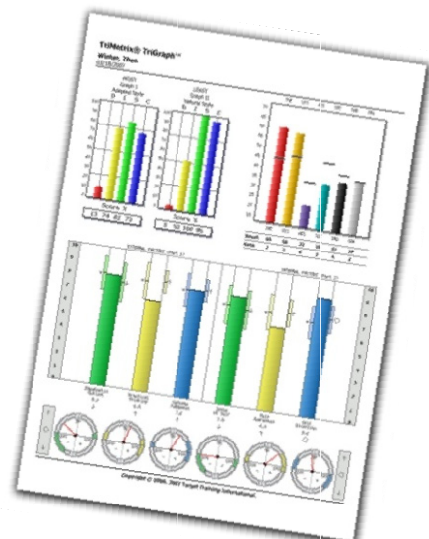

TriMetrix is the ultimate tool for the selection, development and management of talent. It assists individuals and teams reach their potential. TriMetrix is being used by some of the world's largest and most successful companies to recruit, develop and retain the right talent to secure their future.
